What is the Co-Curriculum?

The Co-Curriculum at Bulmershe School slots together with the Academic Curriculum. The Co-Curriculum features the House System, a wide variety of extra curricular activities, a focus on student attributes and an enrichment programme which when all put together aims to develop the students knowledge, skills, attitudes and values in order to enhance their talents and abilities so that they can make a positive impact and contribution to their world.

B.A.C. BULMERSHE ALUMNI COMMUNITY

• AIMS.

- To enable past Bulmershe students to continue to benefit from their association with the School.
- To enable current Bulmershe students to have an enhanced education at The Bulmershe School.
- To encourage future students to choose The Bulmershe School as the best option for their education and life experience.

How could the Alumni of Bulmershe School Assist?

'There are many positive and helpful ways.'

Connecting with the project to celebrate the School's 50th Anniversary in a series of Alumni Reunions, it is planned to create a Bulmershe Alumni Community. Included in the aims of the Alumni Community the School's former students are being asked how they might contribute to the educational experience and opportunity of the School's current and future students.

There are many ways that Bulmershe Alumni can become involved in helping with the development of the Co-Curriculum at the School. These are outlined on the reverse of this information sheet.
