To Whom It May Concern

As you will have seen, works on site have been ongoing over the past months in preparation for the safe demolition of the buildings. These have progressed well and we hope that we have not caused too much inconvenience.

During the week commencing Monday 9<sup>th</sup> July, the structural demolition will begin. We will be starting with the caretaker's bungalow at the front of the site, followed by the main leisure complex the following week. The works are planned to be completed by the end of the school holiday, minimising the impact that our lorry movements in and out of the site will cause to the local school traffic. We will be taking steps to suppress noise and dust nuisance to our neighbours, but do advise that the nature of demolition means that these cannot be eliminated.

We would like to remind everyone that due to the nature of the demolition work, the site danger will be at its greatest for unauthorised persons. So we ask that we all work together and inform children that it's not a playground.

The site is registered with the Considerate Constructors Scheme and more information about this can be found here website: [www.ccscheme.org.uk](http://www.ccscheme.org.uk) and the site ID is 110155.
